## PROJECTS

### MEDICINE MANAGEMENT SYSTEM FOR BHW >>> 2023 - 2024

🌐 <https://github.com/Glennarcega/bhw>

- It allows barangay health workers to manage and monitor the medicine stocks more efficiently and accept the requests for medicine from residents. One key feature could be the ability to send SMS messages or announcements to the residents. Built using html,css,javascript,bootstrap in frontend and for the backend is PHP
- <https://www.malitamhealthworkers.com/>

### CASAS TRANSIENT HOUSE RESERVATION >>> 2022

🌐 • <https://github.com/Glennarcega/CasasTransientHouseReservation>

- "Casas Transient House Reservation": Using this web system, the owner can easily manage customers reservations without being delayed or conflicted in selecting their specific rooms. This online reservation will help to facilitate the transaction, ensure that there is a room available, and make it easier for customers to book with Casa's Transient House. They will be capable of choosing rooms that fit within their budget. They will also discover whether there are any rooms available or not., built using Flask for the backend and HTML, CSS, and JavaScript for the frontend. Built using html,css,javascript,bootstrap in frontend and for the backend is PHP
-
